To experience the Spiritual Plumbers™*

Join us for food, drink, fun, laughter & fresh ways to help clients!

The Spiritual Plumber™/Medical Intuitive approach can help you in your medical practice. Each one of us has the ability to heal through energy. Energy medicine is becoming more popular year after year. Many scientific breakthroughs have happened by measuring energy variations emitted through diseased organs. You, as a practitioner, can keep an open mind to energy medicine and consider expanding your ability to help your patients.

- **Meet Spiritual Plumber™ team members & Alice Tomasello, a medical intuitive, who demonstrates her skills of seeing inside the body using a computer anatomy program to describe details.**
- **Learn about energy systems inside and outside of the body, which reveal physical disease and emotional distress. Learn how Spiritual Plumbers™ help balance these energy systems in their clients.**
- **We will show you how to work “hands on” with spiritual energy to begin expanding your own skills.**

Members of the Spiritual Plumber™ Team include medical intuitives, MD's, alternative, and Oriental medical doctors, naturopaths, nurses, chiropractors, acupuncturists, healing touch and energy medicine specialists, psychologists, massage therapists, scientists in biochemistry, genetics, and nutrition. All have two or more special gifts such as:

- **Seeing with great detail inside the body's organs, brain, bones, muscles, lymph, nerves, blood, down to the cellular and DNA level.**
- **Seeing electro-magnetic energy fields and grids of the body that are out of balance and taking action to bring balance to these fields and grids.**
- **Clairvoyant abilities or hearing others thoughts and intensions.**
- **Seeing forgotten memories in cells related to physical/emotional disturbances.**
- **Receiving communication or guidance from unseen realms, angels, spirits, God.**
- **Extra-sensory hearing, seeing, feeling, smelling, that assists us in helping others.**
- **Extraordinary intuitive knowing of super-conscious information that guides our decisions and actions for helping our clients.**
